

EUROPEAN UNIVERISTY

EDUCATION SHAPES THE FUTURE

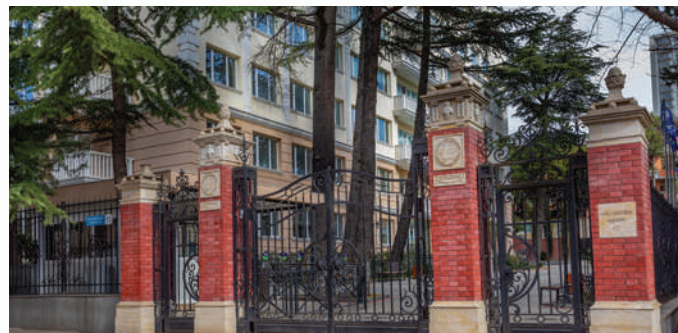

INTRODUCTION

European University is an authorized private higher education institution that administers accredited Bachelor's and Master's degree programs, providing locally and internationally recognized qualifications.

The University possesses three well-equipped main buildings (with an additional building currently under construction) and a well-furnished student dormitory. Additional facilities include a Historical-Archaeological Museum, the “EU Dent” dental clinic, and the “Jo Ann University Hospital”, among others.

European University programs are accredited by the National Center for Educational Quality Enhancement (EQE), which is a member of the European Association for Quality Assurance in Higher Education (ENQA), registered with the European Quality Assurance Register for Higher Education (EQAR), and officially recognized by the World Federation for Medical Education (WFME).

Accordingly, graduates of European University are well-qualified to pursue further studies or secure employment not only in Georgia, but also in the European Union, Canada, Australia, the United States, and various Asian countries.

FACULTY OF VETERINARY MEDICINE

The Faculty of Veterinary Medicine at the European University, established in 2019, is a gateway to a specialized education in the dynamic field of veterinary medicine. Our mission is to nurture the next generation of skilled and compassionate veterinary professionals.

What sets us apart is our commitment to staying ahead in this ever-evolving field. Our curriculum seamlessly blends theoretical knowledge with hands-on training and exposure to the latest research. We focus not just on academic success but on producing graduates who are ready to meet the unique challenges of veterinary practice.

In collaboration with industry leaders and research institutions, we ensure our students are equipped with the latest advancements in animal health, diagnostics, and treatment modalities. Our graduates are expected to be globally minded, prepared to make meaningful contributions to both local communities and the broader veterinary landscape.

FACULTY OF MEDICINE

The Faculty of Medicine at the European University, a pioneer in healthcare education since 2014, is dedicated to training the next generation of healthcare professionals.

Our cutting-edge infrastructure includes advanced medical simulation centers, dentistry simulation rooms, and well-equipped labs, featuring technologies such as Body Interact, Anatomage, and 3D Virtual Anatomy. This ensures an immersive and technology-enhanced learning experience for our students.

Complementing our academic endeavors, the University Hospital and Dental Clinic stand as integral components of our educational ecosystem. These facilities provide real-world exposure and practical training opportunities, bridging the gap between theory and practice.

FACULTY OF LAW, EDUCATION, BUSINESS AND TECHNOLOGY

Established in 2022 through a merger of the two pre-existing faculties, our Faculty of Law, Education, Business, and Technology is dedicated to academic excellence and global competence. We focus on training specialists for both local and international markets.

Our modern facilities, including moot court room and IT lab, provide hands-on experience alongside theoretical knowledge, preparing graduates for dynamic professional challenges.

Quality prevails over quantity in our faculty, where tailored education empowers individuals to excel. Beyond conventional curricula, we offer extracurricular activities, public lectures, employer meetings, and international events to create a well-rounded educational experience and a robust network for our students.

LEGAL AID CENTER

The faculty of Law, Education, Business and Technology houses a legal aid center where students, under the guidance of experienced practicing lawyers lecturing at European University, offer legal advice to individuals and businesses.

Depending on the client's needs, they assist in preparing legal documents, lawsuits, and participate in negotiation processes. Since its establishment, the Center has delivered numerous legal consultations, filed a number of lawsuits, and prepared various legal documents.

A pivotal aspect of the Center's activities is its involvement in constitutional proceedings. Students working at the center are involved in crafting constitutional claims and representing the court in a friend-of-the-court capacity.

JO ANN UNIVERSITY HOSPITAL

European University takes pride in being the proprietor of Jo Ann University Hospital, a distinguished medical institution in Georgia specializing in cardiac diseases. The hospital has achieved significant success in reducing mortality and morbidity rates among neonates and children in the country.

Moreover, Jo Ann University Hospital provides services in angiology, internal medicine, neurology, and pediatrics. It sets itself apart through its cutting-edge infrastructure, enabling early diagnosis, treatment, and monitoring of children's heart diseases and related conditions.

DENTAL CLINIC - EU DENT

The European University Dental Clinic, "EU Dent," is dedicated to providing clinical practice opportunities for students enrolled in the dentistry program.

The clinic houses departments specializing in restorative dentistry, oral surgery, pediatric dentistry, and radiology, all equipped with state-of-the-art dental facilities and devices.

Students in advanced courses (6 semesters and beyond) at European University have the opportunity to apply the practical skills acquired during the pre-clinical stage while treating patients under the guidance of experienced professors.

Engaging in active clinical practice assist our students in selecting their future specializations, ultimately fostering their development into highly qualified clinicians.

UNIVERSITY-BASED HISTORICAL-ARCHAEOLOGICAL MUSEUM

The Historical-Archaeological Museum is a structural unit of the University.

The provisions of the Law of Georgia on Cultural Heritage, the Law of Georgia on Museums, the Legal Acts of the University, and the relevant internal regulations are applied to the museum material.

According to the Provision of the Historical-Archaeological Museum of European University, it has the right to carry out cultural, scientific, research, and other types of activities permitted by acting legislation.

Museum material is acquired by means of discovery, excavations, purchase, exchange, donations, etc.

The purpose of the Museum is to search, protect, store, restore, conserve, exhibit, and popularize museum exhibits.

LIBRARIES

The European University Library, as an integral part of the University, adheres to the library usage guidelines, providing access to library resources for students, academic, invited, scientific, and administrative staff.

The library is situated in both university buildings and operates every day except Sundays.

The library's collection comprises mandatory literature essential for the University's educational programs, along with general publications, scientific and fictional works, periodicals, digital literature, and more.

The University provides access to the following electronic databases: the EBSCO EP Package ELIT (comprising 11 databases), the eFL (comprising 8 databases), as well as Elsevier: Scopus, ScienDirect, and Funding Institutional (SciVal Funding™).

STUDENT RESIDENCE

Located in a secure and ecologically friendly area near the Embassy of the USA in Georgia, the dormitory spans 4,700 square meters and offers accommodations for up to 250 students.

The dormitory features a variety of room options, including single, double, and triple rooms. Each room is furnished and well-equipped, providing a comfortable living space for the residents. These rooms include amenities such as free Wi-Fi, air conditioning, central heating, and a private bathroom. Common areas, such as a cafeteria and gym on the ground floor, enhance the overall living experience.

A team of professional residence life staff is dedicated to maintaining and ensuring the safety of the dormitory, creating a conducive and secure environment for all residents.

THE STUDENT AND ALUMNI SERVICE CENTER

The Student and Alumni Service Center at European University offers a diverse array of activities, including the Graduation, Welcome, and New Year parties. Additionally, the center organizes excursions, outdoor leisure activities, various educational and social projects, as well as charity events throughout the year.

European University places significant value on student clubs, recognizing them as an integral part of student life. To support this, the University has established a versatile space that enables students to spend leisure time together, collaborate on ideas, and host a variety of events, such as seminars, public lectures, panel discussions, conferences, small talks, chess tournaments, table tennis competitions, and more.

Currently, the university hosts several clubs based on students' interests and passions, including the Literary Club - Livingstone, Psychology Club - Psychmix, Veterinary Club - VET Eudora. Furthermore, European University students have formed a musical band, enhancing the musical aspect of university life.

In terms of sports, European University boasts several affiliated sports clubs, including the EU Futsal Team, EU Dance Ensemble, EU Girls Volleyball Team, and EU Girls Basketball Team. Joining these sports clubs offers numerous benefits, providing students with opportunities to develop transferable skills, enhance mental health, stay physically active, and enjoy their time at the University.

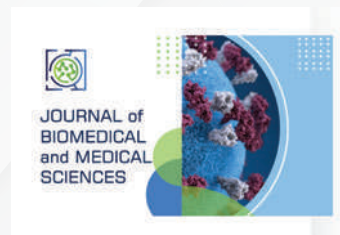

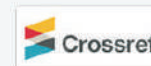

RESEARCH INSTITUTES

The European University issues 4 international journals that are peer-reviewed and indexed in scientific databases such as Ojai, Sis, Google Scholar, Index Copernicus, and IJ Impact Factors.

Furthermore, European University operates 4 research institutes of its own:

- Medical Research Institute
- Scientific Research Institute of Law
- Research Institute of Economic and Social Issues of Globalization
- Andria Apakidze Institute of Archeology

RESEARCH SUPPORT CENTER

Research Support Center promotes and encourages scientific research activities of the university staff and students, and ensures the involvement of them in scientific research processes.

Among the important functions of the Research Support Center are:

- Ensuring the involvement of university students and academic staff in scientific research processes
- Identifying grant projects and promoting the involvement of staff and students in research grant projects
- Developing and implementing a system for evaluating the productivity/effectiveness of academic staff research activities with the Quality Assurance Service

HORIZON EUROPE OFFICE

European University proudly stands as the first private Higher Education Institution (HEI) to establish a HORIZON Europe Office in Georgia, a milestone achieved in 2022.

Key functions of the HORIZON Europe Office include:

- Sharing information among the academic staff of European University about current and forthcoming open calls announced by Horizon Europe.
- Organizing info-days and conducting individual and group consultations with specific focus groups.
- Providing technical support throughout the process of working on project proposals.
- Identifying partners and building consortia.
- Offering support during the projects' registration of the application.

This initiative underscores European University's commitment to fostering research and innovation by actively engaging with the HORIZON Europe program.
for evaluating the productivity/effectiveness of academic staff research activities with the Quality Assurance Service

INNOVATIVE TEACHING TRAINING CENTER

Innovative Teaching Training Center focuses on improving the continuous professional development of the academic and invited staff of the University and the introduction of innovative teaching methods in the field of higher education.

The training center systematically provides academic staff and invited specialists with seven main modules:

- Planning a student-centered learning process;
- Modern methods of assessment in higher education;
- Modern teaching methods in higher education;
- Problem-based learning;
- Principles of Academic Integrity in Higher Education;
- Highly effective use of remote platforms in teaching;
- Training courses in a blended learning format.

Innovative Teaching Training Center

OFFICIAL TOEFL iBT® TEST CENTER

European University has successfully completed the certification process provided by the Certified Test Administrator Services (CTAS) network and received approval from the Educational Testing Service (ETS) to set up a university-based TOEFL iBT® test center.

The Educational Testing Service® (ETS) is the world's largest testing and assessment organization headquartered in the United States, while the TOEFL® Testing Center is an independent agency contracted by ETS to administer the TOEFL iBT® test.

ID - STN20389A

INTERNATIONALIZATION

The internationalization policy of European University is structured around three main directions:

- Internationalization of the teaching and learning process.
- Internationalization of extracurricular activities.
- Internationalization of scientific-research activities.

Within the framework of Memoranda of Understanding (MoUs), Interinstitutional Agreements (IIAs), or project-based collaborations, European University currently maintains partnerships with over 100 foreign universities.

PROJECTS

Ongoing:

CBHE Project - Development of Veterinary Faculties at Georgian HEIs to Create a New Pool of Young Veterinary Professionals in Georgia
(VETPRO, ERASMUS-EDU-2022-CBHE-STRAND 1-101082479)

CBHE Project - Enhancement of Special Oral Healthcare Practice and Lifelong Learning among Dental Practitioners in Georgia (HEAL, 101129331)

Jean Monnet Module - European Union Enlargement: Past Lessons for Future Decisions (EnlargEU, 101127859)

EMDM Project – Slow Tourism Management (STM, 101081943)

Completed:

Jean Monnet Project - Advancing European Values and Standards in Georgian Schools
(EU-GS, 620893-EPP-1-2020-1-GE-EPPJMO-PROJECT)

Jean Monnet Module - Europeanization as an Instrument for Democratization of Georgia
(EIDM, 620916-EPP-1-2020-1-GE-EPPJMO-MODULE)

Europeanization as an
Instrument for
Democratization of
Georgia (EIDM)

Advancing European values and
standards in Georgian schools
(EU-GS) 2020-2022
