## Learning EU at school

A Jean Monnet action supporting better EU education in primary, secondary and vocational schools

## School actions

From March 2021, under the Erasmus+ programme for 2021-2027, Jean Monnet Actions offer new funding opportunities for schools and vocational education and training institutions.

These aim to support teachers in primary, secondary and vocational education to inform young people and develop critical awareness about the European Union, what it stands for, how it works and what difference it makes to their daily lives. These actions cover both education and vocational training (ISCED 1 – 4).

Activities organised under this section will also create new opportunities for professional expansion regarding the European dimension of teaching at school, in particular on teaching about the European Union.
