

Erasmus+ Seminar for Small Scale Partnerships The Project Compass: Navigating Ideas towards Projects

June 9 (online), 2026 and June 17-19, 2026
Vilnius, Lithuania

Themes and goals:

Trainers: TBS

Are you new to the program Erasmus+ Key Action 2 or have little experience with it? Are you interested in creating a project for a small scale partnership, but do not know where to start? Are you looking for partners for your project? If the answer to these questions is yes, then this seminar is for you! This seminar is designed for newcomers to the programme, who have little or no experience in Erasmus+. We will be facilitating the TCA through the specific parameters of Small-Scale Partnerships (KA210 SCH, VET, ADU), and our goal is to navigate through some of the -starting hurdles.

Expected results:

- To get to know the specifics of Erasmus+ small-scale partnership projects,
- To provide knowledge, skills and tools for project planning: refining the idea, identifying the need for innovative products, ensuring quality, measuring the impact and ensuring project visibility,
- To provide space to plan the essential aspects of an international partnership project,
- To improve the accessibility of the Erasmus+ programme to various types of new, inexperienced organisations.

The training seminar consists of two compulsory parts:

9 June 2026

Online

17-19 June 2026

Vilnius, Lithuania

EUROPEAN UNION

12:30	Evaluation of the seminar
13:00	Lunch and departures

Participants from the previous events left with valuable knowledge and practical tools for understanding and developing KA210 small scale partnerships. Many attendees gained their first clear insight into project planning, application requirements, and effective methodologies for writing successful proposals. The seminar also created opportunities for participants to refine their ideas, connect with potential partners, and gain motivation to develop their own projects:

"The course was amazing. I came to the training with no understanding of what Erasmus projects are, especially KA2 (I had only heard about mobility projects). I not only learned which topics are suitable and what specific requirements exist, but I also received information about the methodology for writing a project – including very specific guidelines and a Canva table".

"Project planning is useful not only for Erasmus+ projects, but also for other local or national initiatives".

"Checked my idea, found partners, very good format to find valuable partners. This seminar inspired me to try to write a project".

"The seminar itself was flawless – well-structured presentations, activities, and games. All necessary materials were provided, and each facilitator knew their responsibilities and tasks. Both internal and external communication were outstanding. I am deeply grateful".

"The seminar was top-notch. I have never attended such a well-organized seminar. The seminar leaders presented all the information in a very smooth, easy-to-understand manner".
